Speaking of the weather an old writer says that in May, 1851, there was a heavy black frost, destroying whole orchards of fruit, all grapes and apple tender trees were killed west down to 30 degrees and all the leaves on the trees turned black and fell off. Perhaps some of the older citizens of Columbia remember this cold snap.

SURPRISE BIRTHDAY PARTY.

Any one living in the suburbs of Columbia on the Greensburg road on last Friday morning could in the forenoon see many ladies with baskets wending their way along the highways and over the hills to the home of Mrs. Eliza Cook where they surprised her with their well filled baskets of well cooked viands and many delicacies in the most profuse abundance.

The event was the celebration of Mrs. Cook's seventy-fifth birthday, and as a token of respect for this good woman all the ladies had assembled to do her honor with a surprise dinner. The dinner was set in the large hall of the old time farm house and to say it was fine and ample for many more than was in attendance, is all one can say who was there.

Those present were: Messdames Jackson, Fess, Shearer, Elmore, McFarland, Johnston, Smith, Mitchell, Messes Wilson, Bradshaw, Elmore, Fess, McFarland, Shearer, Grison, Scales, Todd and Hutchinson.

MRS. Z. T. WILLIAMS DEAD.

The intelligence of the death of this highly respected and much beloved Christian lady will be felt throughout the county, and especially did it bring sorrow to the homes of the people living in the Montpelier section. It was here where she was born and reared, and where she had been a Samaritan from early girlhood. A kind and sympathetic neighbor, a devoted wife and a loving mother, a friend to the unfortunate, a God fearing and a God serving woman.

For weeks husband and children watched tenderly by her bedside, hoping and praying that her life might be spared, but God's will is unchangeable, and at 4 o'clock Wednesday afternoon May 6, 1903, her spirit took its flight.

The deceased was the estimable wife of Ed. Z. T. Williams and a daughter of the late Cyrus Wheat, who was known to almost every body in Adair County. Besides the husband who has been so sorely bereft, there are six children, Luther, Lawrence, Loren, Jo, Sallie and Lillie, whose sorrow can only be conceived by those who have lost a dear mother. May God in his infinite wisdom heal the wounds of the broken hearted, and may this dispensation of Providence bring the husband and children closer to their Maker.

Looking toward to a reunited family in that home beyond the skies.

"The way lay to the Valley of Rest," "Down the dim uncertain years," "But still we reach the valley where God dwells."

Where is never a rain of tears.

"We'll forget the gloom of the weary way," "When the thorns grow red and dry," "With an answer even to the prayers we pray," "The spirit of peace will lead the way," "And a sign will be the song."

"And deep in the beautiful Valley of Rest," "We shall meet each other once again," "With loved hands folded above the breast," "We'll say to the Silence how glad we knew thee," "And dream in the light of God."

Mrs. Williams was fifty-eight years of age and had been a member of the Christian Church since early in life.

The following ministers officiated at the funeral: Rev. A. H. Baugh, Jo. Q. Montgomery and A. H. Baugh.

The interment was at Pleasant Hill, many relatives and friends being present.

To the surviving husband and children, the writer extends his heartfelt sympathy.

J. E. M.

Teachers and pupils of the M. and F. High School took an outing last Friday and spent the day at Todd's farm. Dinner was served upon the green and the day was most delightful.

Quite a number explored the caverns and those who did not enter contacted themselves in wild games, listening to music, picking wild flowers, etc., etc. With this picnic the present term of the M. and F. High School closed. A very successful term. Perhaps more scholars were in attendance throughout the ten months than for many years in the past. For more than half the term over a hundred pupils were in attendance. Prof. T. A. Baker and his co-workers have the satisfaction of knowing that they have taught a good school, giving entire satisfaction to parents and pupils. The announcement for the term beginning in September will be made in due time.

FROM INDIAN TERRITORY.

We take the following extract from a letter written to Mr. O. B. Zeller, Keltner, this county: As to the price of land, etc., I can't say that it is not possible at present to get a deed, as the land has been opened the 15th of April and the Indians began to file on their land, and it will be many days before they will get a patent to their allotments, after which the will be allowed to sell one acre of their land which will be 100 acres of the average land. There will be a surplus of several hundred thousand acres, and it is impossible at present to know just how it will sell. But I feel safe in saying that it will be reasonable. I believe it will sell at \$3.50 to \$10 per acre, and it is very productive. I grow wheat at an average of 18 bushels per acre and corn from 35 to 40 bushels per acre. I also grow a large number of peaches, and a large number of apples, and a large number of various other fruits. It is just simply fine. We raise vegetables of the finest quality. We can't keep them as well during the winter as we could in Kentucky. We will sum it all up in our own words, and say, that it is the finest country I have ever yet seen, and it offers all kinds of opportunities to young and old men of energy and push, in all lines and vocations of life. The Indians are civilized and friendly to the white man and welcome him into their country. We have good society especially in our cities and small towns. Nearly all denominations of religion are represented here and we have many beautiful towns and cities. Our city, Ardmore, is the largest in the Indian Territory. It has a population of about ten thousand and has three railroads. Railroads are being built in all directions and the time is close when no man will live farther than ten miles from some railroad. If you ever come to this country make my place headquarters. You might, for the benefit of others, hand this letter to the Adair County News for publication. I was named Russell county, Ky. and have the names of my home people at heart. Respectfully,
U. T. KEMBOAT.

Ardmore, I. T.
The general assembly of the United States will be held in San Francisco this month.

FROM MISSOURI.

CARROLLTON, April 30, 1903.
Mr. Editor:—As Adair county is my father's native home, I have often tried to write a few lines for the paper. I visited Kentucky ten years ago. I was well met but I can remember a great deal about the country. We had a nice visit. I had myself visited grandpa. He didn't know me, so coming to see him. Pa went up in speaking distance before he knew we were in Kentucky. It had been many years since grandpa had seen father. Martin M. Damon is my father and Mr. E. L. Damon, of Parry, is my grandfather. Pa was born in Adair county, June 12, 1801, and is now 41 years old. He was only 15 years old when he came to Missouri. About a year after his arrival he met Miss Bobbie New and in three years thereafter they were married. They started with out a home, raising several years then bought a farm containing 25 acres 25 miles east of Vandalia, Mo., then after several years they bought some more land, making 200 acres in all. We had a home and the farm was bottom land. We lived there until two years ago when my parents traded this place for 160 acres of the prairie land, worth from seventy-five to eighty dollars per acre, 60 miles north of Carrollton. Our home is well improved. Father has had a good deal of fencing put on the farm; had good smoke-houses and a good ice-house built just a few years back. Some people say like Missouri who have come here and have gone back to Ken-

tucky in a short time. Missouri like other States—has poor land, but there are many fine farms that can be found in the United States.
I have two sisters, Jessie and Bobbie. I only have one brother, Martin E. Damon. He is ten years old; can drive a team as well as any body. He works in the field with a team.
I don't suppose I will ever visit old Kentucky again. I would like to see grandpa and would be glad to have him come to see us.

Dedication exercises for the Louisiana Purchase Exposition attracted tens of thousands of visitors to St. Louis, where the president of the United States delivered the formal dedication address, after David H. Prior to their ceremonies a great military parade of over 11,000 regulars and militia men passed through the streets of the World City. At night a magnificent display of fireworks added brilliancy to the day's program. Various State buildings were dedicated Saturday, which was the closing day of the exercises. ANEAT PROGRAM.

Now that the Dedication Ceremonies of the Louisiana Purchase Exposition (The World's Fair) are so close at hand, the public is commencing to wonder what St. Louis has to offer in the way of entertainment to out of town visitors.
The Henderson Route (which is The World's Fair Line) has gotten out a very neat booklet, rest-pocket size, which contains the complete official program of these ceremonies.
It is a modern piece of work in every respect, printed in green and red with gray and blue and high grade engraved book stock inside.

AGE LIMITATION.

There is a growing sentiment which precludes old age from enjoying the benefits of choice positions in the business world. Youth is everywhere preferred. In this respect Electric Bitters is different. It benefits old and young alike. Rev. C. J. Bullock of Ashway, R. I. writes: "I would say to you that I cured what Electric Bitters is. I cured me of jaundice and liver trouble from which I had suffered for years. I'm a great time and nerve and cure Liver, Kidney and Stomach troubles. Only 50c and guaranteed by all druggists."

The next time President Roosevelt quotes from the last letter of Rinal, the Filipino patriot, he should be fair enough to state the circumstances under which that letter was written. Real wrote the letter while a prisoner of the hands of the Spaniards and it was written for the purpose of deceiving the jailers and saving his own life if possible. Galileo and John Milton, the poet, did the same thing under circumstances of a similar nature.

QUICK ARREST.

J. A. G. Edge of Verbena, Ala., was twice in the hospital from a severe case of piles causing 24 tumors. After doctors and all remedies failed, Booklen's Ancho Salve quickly arrested further inflammation and cured him. It conquers aches and kills pain. 25c at all drug stores.

"Slowly but surely," remarks the Glasgow Times, "and with unerring fatfulness, the truth, the whole truth, and nothing but the truth, concerning the most fiendish, the most cowardly assassination that has ever blackened Kentucky's history, is coming to light." Before the end is reached, honest men of all classes will realize that the honor of our State demands the punishment of the last man connected with the horrible conspiracy.

ITEMS OF INTEREST.

News comes from D. H. Turner, a druggist at Demingtown, Pa., that Dr. King's New Life Pills are the best sellers in his store. After using them himself he says, "they are truly great; actual experience convinced me. Every body wants them for constipation, stomach and liver troubles. 25c at all drug stores."

Rev. Sam Jones should pretty hard but he clearly always drives correct. Recently while lecturing in an Iowa town which had three license saloons, he asked how much the license paid the town? \$800, answered some one. What is your population? 2,000 came the answer. The speaker figured a little and then said, "The liquor dealers wait up to you and say, 'If you will let us down this town we will give you forty cents a piece.' Say what is a 200 pound hog worth here? answer \$15. So said Jones, hogs twelve dollars a piece and men forty cents a head 'say, another thing you wish you were a hog? Why you and your whole family would not bring enough to buy a sucking pig."
